

The 23rd Research Conference of the Japan NPO Research Association

[Held online]

Call For Participation

Information

The Japan NPO Research Association will hold its 23rd Research Conference on June 19-20, 2021. Ten years have passed since the Great East Japan Earthquake. During this period, a wide variety of non-profit organizations (NPOs) have emerged and developed a wide range of activities. We will discuss the past, present and future of the non-profit sector, and present the results and significance of front-line NPO research and practice from both overseas and across Japan.

The event will include a public symposium on "The Current State of the Nonprofit Sector", an international panel on "NPO Education at Universities", and a special program on "Dialogue with NPO Leaders in the Coastal Areas of Tohoku" (pre-event to be held on June 9-11), as well as a variety of panels and presentations on research and practice. There will be panels and presentations on a wide range of topics including how to work in NPOs, training and education, management, fundraising, collaboration, donations and volunteering, CSR, social enterprise and sustainability.

The conference is open to everyone, including researchers, NPOs, government, companies, and students, and we hope that many of you will be able to attend.
